Linking People, Business & Technology

With proven expertise in secure payment connectivity, XLink's secure, managed network capability, national contact centre, field support and logistics underpin our commitment to linking technology, business and people. With our partner Vodacom we provide market-leading IT solutions utilising the latest innovations and trends in information technology for the benefit of our customers.

ABOUT US

XLink was established in 2004 to become a leading provider in providing agility, resilience and best practice in connectivity for the retail and payment sectors. When XLink first opened its doors, the connected world was just starting. By leveraging the skills we honed in the payment and retail sectors, we have become the perfect partner to help consult, develop and orchestrate products and solutions in the connectivity space.

WE ARE ACCREDITED AND COMPLIANT

- ✓ Level 3 BBBEE Accreditation
- ✓ IFRIS Accounting Compliance
- 🔒 Secure Compliant Solution (PCI DSS)
- ✓ Regulatory approved technology (ICASA)
- ✓ NOSA Certification as a Vodacom Supplier
- 🔒 Expert Certified Installation (QIR)

WHAT WE DO

- POS Payment Connectivity**
Grow your business with our efficient, cost-effective, tailored, secure and managed POS payment solutions.
- Integrated Payments Connectivity**
You enjoy secure data processing, failover and asset and infrastructure monitoring with our integrated payment solutions.
- Secure Connectivity**
We offer you a complete range of information and communications technology services and solutions for payments in retail.
- Digital Enablement**
With us as your digital enablement partner, you will benefit from the age of connectivity offered by the Internet of Things.

WHY US?

- Valuable Consulting**
Comprehensive consultation service to understand and identify the connectivity requirements and risks in your business.
- Technical Strengths**
Technical skills, capabilities and infrastructure providing a complete range of information and communications technology services and solutions.
- Support Services**
Comprehensive support services available nationally to all our customers, 7 days a week every day from 7am to 10pm.
- Secure Solutions**
Our QIR certified installation experts and international QSA consultants ensure you meet the PCI compliance requirements your business needs.
- Business Analytics**
Taking advantage of the evolution of IoT to enhance the in-store customer experience through the deployment of new analytics platforms.
- Outsourced Capabilities**
Providing trusted and proven Managed Outsourced Services to simplify, enhance and manage your business environment.

WE ARE CONNECTIVITY ORCHESTRATION EXPERTS.
