LINKING PEOPLE | BUSINESS | TECHNOLOGY

# Connectivity for Small Businesses

If you are a small to medium enterprise with between 2 and 50 employees, you're in the right place. With over a decade of experience in connecting businesses and retail, we understand your needs and have tailored solutions for you that will benefit you and your business.

## POS Payment Connectivity

Grow your business with our efficient, cost-effective, tailored, secure and managed POS payment solutions as a SME business.

### Mobile POS Connectivity

XLink's Mobile POS Solutions include our SIM Connectivity Solution and our Transaction Monitoring Solution.

### WiFi-enabled POS Connectivity

XLink offers WiFi access points which enable secure, cost-effective and wireless connectivity for WiFi-enabled POS devices.

### Cash Management Connectivity

Our cash management solutions can help you handle significant amounts of cash.

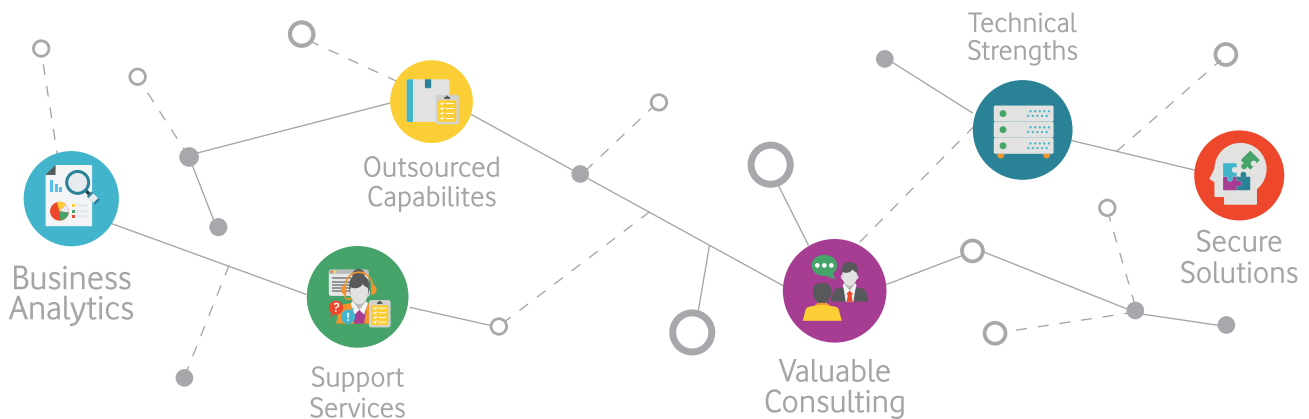

## Secure Connectivity

We offer you a complete range of information and communications technology services and solutions for payments in retail.

XLink's range of secure network ICT consulting services include infrastructure, development, security, hosting and networking.

- Professional Services
- Infrastructure Services
- Development Services
- Security Services
- Hosting Services
- Networking Services

## WE ARE CONNECTIVITY ORCHESTRATION EXPERTS. HOW CAN WE LINK YOU TODAY?

- Secure Compliant Solution (PCI DSS)
- Expert Certified Installation (QIR)
- Regulatory approved technology (ICASA)

- Verified by network operators
- National support network
- Trusted by major banks
