

# Have you considered the effect of a security breach on your business?

The connected world creates many advantages and opportunities for progressive businesses. But security is a real threat that can derail all of that, mainly because it is hard to effectively respond

to such a broad risk. Unified Threat Management provides everything needed to keep your business safe and secure without having to apply the brakes to progress.

## Assessed Challenges

- ⓘ Mitigating security vulnerabilities
- ⓘ Employing skilled security professionals
- ⓘ Costly investment to secure business IP ad data
- ⓘ Effectively monitoring and managing threats

## Our Solutions

“ 1 out of 3 South African businesses experience cyber crimes. Ransomware costs South African businesses a median of R1,6 million each. ”
